- **Leadership Enablement:** Executive Briefings, Executive Communications, Stakeholder Management, Cross-Functional Team Leadership, Special Projects, Leadership Forums & Presentations
- **Product & Strategy:** Product Roadmaps, PRDs, Agile/Scrum, JIRA, Azure DevOps, Strategic Planning, Corporate Strategy
- **AI/ML:** Python, LLM Agents, Prompt Engineering, Evals, Fine-Tuning, Chatbots
- **Cloud & Infrastructure:** Azure, GCP, Databricks, AWS
- **Productivity:** Cursor, GitHub Copilot, MS Office Suite

EXPERIENCE

Senior Manager

Oct 2024 – Present

EXL Service | Noida, India (Remote)

- Drove cross-org strategic initiatives by creating and executing a 12-month Gen AI roadmap for EXL's Healthcare business unit; evaluated 6 POCs and advanced 4 to MVPs in partnership with leadership
- Generated ~\$17M in revenue across 4 client projects through executive-level stakeholder alignment with development, security, compliance, and SME teams
- Led cross-functional collaboration across 2 agile teams (7 members each) and a 6+ member architecture guild (13+ total), setting vision, prioritizing roadmaps, and standardizing delivery patterns across 4 product lines
- Achieved 28% reduction (~\$64K) in annual R&D cloud costs within 3 months through financial review, compute optimization, and operational process redesign — demonstrating fiscal discipline and budget ownership
- Improved sprint velocity by 35% by designing developer onboarding and training programs and rolling out AI coding assistants (GitHub Copilot, Claude Code, Nemoclaw) org-wide
- Designed Python-based agent evaluation frameworks across accuracy, completeness, policy adherence, and reasoning; executed automated test harness across 100+ synthetic scenarios to support governance and quality assurance

Manager

Jul 2021 – Sep 2024

EXL Service | Noida, India (Remote)

- Authored and published 12+ monthly executive briefings and industry research newsletters to surface strategic opportunities for VP+ leadership — direct experience preparing leadership communications and driving fact-based decision-making
- Led end-to-end planning and execution of 6 Healthcare conferences, owning messaging, executive content design, and VP+ networking — representing the organization in high-visibility, cross-functional engagements
- Improved financial operations by reducing DSO from 94 to 85 days through invoice review and ACH reconciliation system implementation, strengthening operational rigor and cash-flow discipline
- Ensured accurate resource and cost allocation across the organization; reviewed and closed ~400 inactive project cost codes as part of broader fiscal governance

Management Intern (Sales)

May 2020 – Jul 2020

Prione Business Services Ltd. (Amazon Subsidiary) | Bangalore, India (Remote)

- Analyzed 11,000+ seller launches and developed the CAN Framework to evaluate seller potential with 90% accuracy, supporting data-driven strategic decision-making
- Identified 500+ high-value leads and launched 200+ HV/Brand sellers with avg. GMS of \$120K; improved turnaround time ~20% and sales productivity ~17%

Process Engineer

Jul 2018 – Jun 2019

Sai Life Sciences Ltd. | Hyderabad, India

- Scaled 2 API intermediary products from lab to manufacturing (25x and 60x scale), delivering products worth ~\$35M — early experience in operational scaling and cross-functional execution

PROJECTS

- **AI-Powered CRM:** Developed an end-to-end AI-powered CRM for managing sales pipelines and customer interactions (~60,000 LOC), demonstrating full-stack software and Gen AI application skills
- **Influencer Management Platform:** Selected as Semifinalist in 100x Engineers Buildathon 2.0 for building an AI-powered platform to discover influencers, manage outreach, and streamline brand workflows

EDUCATION

MBA, General Management — Indian Institute of Management Calcutta (IIM-C) Jun 2019 – May 2021

- CAT 99.69 percentile (out of 2.1L candidates); developed subscription model for 1-day delivery across 21 cities for Udaan
- Authored case study on MG Motors' entry strategy in the Indian SUV market; received A+ grade

B.Tech, Chemical Engineering — NIT Surathkal (NITK)

Aug 2014 – May 2018

- Awarded IOCL Educational Scholarship (INR 1.44 Lakh) among 300 students for all 4 years of undergraduate study

CERTIFICATIONS

PMP | CSPO | Agile Scrum | Generative AI (100x Engineers) | AWS Cloud Practitioner | Ian Golding Customer Experience Framework | Lean Six Sigma Green Belt

ACHIEVEMENTS

- Generated ~\$17M in client revenue while leading cross-functional Gen AI delivery across 4 product lines
- Reduced annual R&D cloud costs by 28% (~\$64K) within 3 months through fiscal review and process optimization
- Improved DSO by 9 days (94→85) through financial process redesign and reconciliation system implementation
- Scored in the 99.69th percentile on CAT among 2.1 lakh candidates, securing admission to IIM Calcutta
